PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate (2022–2026) with hands-on experience in Python, SQL, Linux systems, Machine Learning, and cybersecurity fundamentals. Experienced in AI-integrated Linux applications, NLP-based data science projects, and IAM-focused cybersecurity simulations. Seeking entry-level opportunities in Data Science, Artificial Intelligence, or Cybersecurity.

TECHNICAL SKILLS

Python, SQL, Linux
Machine Learning, NLP, Data Analysis
TF-IDF, Naïve Bayes, Logistic Regression
IAM Fundamentals, Access Control
PyGObject, Jupyter Notebook

INTERNSHIP EXPERIENCE

Python Linux Intern (AI) — Champion Semiconductor LLP (June 2025 – November 2025)
• Developed Linux-based Python applications integrated with AI components.
• Worked on G2N Python NVR and G2L PyGObject modules for AI-driven automation and UI.
• Collaborated with hardware teams on AI and system-level integration.

Data Science Intern — Onestop (Aug 2023 – Sep 2023)
• Built ML models for Hate Speech Detection and SMS Spam Classification using NLP techniques.

PROJECTS

Hate Speech Detection | SMS Spam Detection | Fake News Detection | Sentiment Analysis
• NLP-based text classification using TF-IDF, Naïve Bayes, and Logistic Regression.

CERTIFICATIONS & TRAINING

Cybersecurity Analyst Job Simulation — TCS (via Forage), January 2026
• Exposure to IAM fundamentals, access control analysis, and cybersecurity workflows.

EDUCATION

B.Tech in Computer Science & Engineering — Bennett University, Greater Noida (Expected 2026)
CBSE (PCM + Computer Science) — Delhi Public School, Faridabad (2022)

EXTRA-CURRICULAR ACTIVITIES

Assistant Photographer & Event Manager — Uphoria 2024 (College Fest), Bennett University
Volunteer — Pickleball Event at PWR, Delhi (Oct 2024)
